

MISSION STATEMENT

We operate on the core principles of Safety, Integrity, Quality and Production. Ensuring our employees and clients work in the safest environment possible, never compromising integrity or quality, while producing value in the products and services we provide our partners. Living this mission by these core principals will build our relationships with our employees, their families and our clients, and build a stronger bridge to our company's future.

QUALITY-FOCUSED

Industry leading work processes and procedures ensure we stay on course to deliver the high-quality projects our clients expect.

LEADERSHIP

Seasoned industry veterans who leverage experience, resources, manpower and knowledge to assemble and mobilize teams quickly and efficiently, lower client risks and deliver best-in-class results.

RUS ADVANTAGE – “WHY RUS”

One element that separates RUS Industrial from our competitors is our ability to combine big-company competency with small-company responsiveness. We provide the resources when needed to properly staff and execute your project, regardless of size. We are extremely proud of the reputation we have earned as a contractor who safely delivers one project at a time, within established budgets within or before committed schedule dates.

“DO IT SAFELY, DO IT RIGHT, DO IT ONCE”
